

Nails?

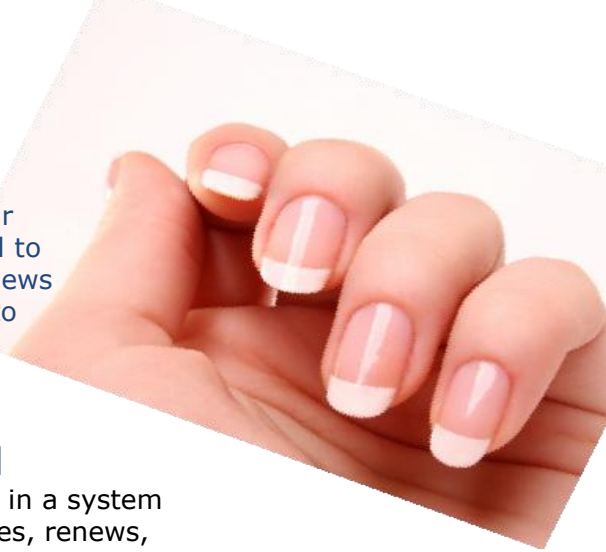

In the past few years there have been hundreds of new developments in nail products. Some focus on caring for your nails, others offer unimaginable patterns, some are designed to prevent chipping and damage. All developments are great news for fingers and toes but can lead to confusion. Here we try to explain the difference:

OPI Luxury & Standard

OPI brings facial quality care to you in a system of products that exfoliates, revitalizes, renews, and protects. For instantly visible results that improves skin with every use. A wide range of colours from classic pale pinks to the latest fashion colours.
