

Tricks of the Trade TOUSLED TWIST

A feminine french twist with casual glam. Redken have excited us with this image taken at the recent Dolce and Gabbana catwalk. Inspired by screen siren Sophia Loren - this tousled French twist merges elegance with ease. "This twist has more volume than recent French Twists and similar styles. I think it makes it softer, more feminine, yet still very glamorous. Easier for more face shapes to wear." Jackie, Owner of Salon Seven.

Step 1

On damp hair, REDKEN Spray Guts 10 at the roots. Blow-dry with your fingers to create volume throughout.

Step 2

Starting in the nape area, take random sections. Using different sized irons, curl each section for maximum volume. Let cool.

Step 3

Once hair has cooled, use your fingers to separate the curls – you want them to have a natural, undone look and feel. As you pull the curls up with your fingers, spray on REDKEN Quick Dry 18 to hold them in place.

Step 4

In the back, gather hair into a roll and pin into place. Create a tousled end result (it shouldn't look too perfect) using REDKEN Quick Dry 18 throughout.

Step 4

Step 4

Many thanks to REDKEN UK for their inspiration and Tricks of The Trade
